

# EURON®

Wall-hung gas condensing boiler  
Outputs 24 KW - 30 KW

EURON® from MHS Boilers combines economy with efficiency. The EURON® uses the latest in condensing technology to deliver an extremely attractive cost-performance ratio. The EURON benefits from high levels of modulation and net efficiency up to 108.5% - impressive in such a compact wall-hung, gas-fired condensing boiler.

#### **Flexible Installation**

Ideal replacement appliance

#### **Intelligent Control Engineering**

Simple and very easy operation

#### **Extremely Compact**

Small dimensions and low weight

#### **Energy Efficient**

Efficiency up to 108.5% Net

#### **Easy To Service and Low-Maintenance**

All components are easily and quickly accessible.

BOILERS

# Simple to install

EURON® is available in three models 24kW and 30kW System Boilers plus a 30kW Combination Boiler.

EURON® has a stainless steel heat exchanger as well as an premix LOW Nox burner to guarantee minimal emissions. The EURON® has built-in weather compensation to maximize energy efficiency and its control panel is simple to operate - making it easy for the end user.

EURON® comes into its own when it comes to installation and service. It has designed with the engineer in mind - to make maintenance quick and cost effective. Thanks to its clever design annual services can be carried out in a matter of minutes. The boiler is delivered completely assembled making installation easy.

EURON®		HG 24	HG 30	HSG 30 (Combi)
Nominal heat output @ 80/60 °C	kW	5.8 - 22.8	6.9 - 28.1	6.9 - 28.1
Nominal heat output @ 50/30 °C	kW	6.1 - 23.6	7.2 - 29.2	7.2 - 29.2
Hot water flow rate @ 35°C Temperature Rise	l/min	-	-	11.91
Width	mm	450	450	450
Height	mm	750	750	750
Depth	mm	378	378	378
Weight	kg	35	37	37
Flue Connection (Concentric)	mm	80/125	80/125	80/125
