Relax - it's simple with a Maintenance and Service Plan from MHS Boilers

from only
£290
 PER YEAR
 + vat

It's easy to ignore your boiler and heating system - until it goes wrong or breaks down. A system failure, especially one caused by lack of maintenance, can be inconvenient and costly.

It isn't hard to imagine the difficulties that problems with your heating system can cause - cold working environments, lack of hot water, disgruntled colleagues and customers or worse. The good news is that it doesn't have to be a problem. By choosing one

of the Maintenance and Service Agreements from MHS means you can relax in the knowledge that any breakdown will be taken care of and your boiler will be comprehensively serviced annually. Plus, you can choose the level of coverage to suit you.

All Inclusive Charges					
Your Cover Choice	Annual Service	Priority Breakdown Cover	Breakdowns	Parts	Labour
Peace of Mind <small>(for in warranty equipment only)</small>	✓	✓	✓	✓	✓
Premier Gold	✓	✓	✓	✓	✓
Premier	✓	✓	✓	X	✓
Standard	✓	✓	X	X	X

A small price to pay for peace of mind.

Peace of mind with an annual service and a full parts and labour guarantee

Benefits of a Maintenance and Service agreement with MHS

Full breakdown cover

In the unlikely event of a boiler breakdown our engineers will be with you within 24 hours. What's more there will be no extra costs as parts and labour are all covered by the agreement.

Full annual service

An annual service, expertly carried out by our fully trained and qualified technicians, is included - reducing the risks of un-necessary breakdowns.

Fully trained and

Gas Safe registered

Our Service Technicians hold ALL the relevant qualifications to enable them to provide an expert level of service and advice. Our fully trained Technical/Service department can also offer assistance before, during and after installation.

Spares and controls

Our Technicians carry stocks of all commonly requested components on their vehicles. They are supported by a large stock inventory in our Service/Spares department ensuring down times are kept to a minimum.

Energy efficiency

Regular maintenance ensures that the equipment is operating to its maximum efficiency, reducing the overall running costs.
